SHAMA SHRESTHA

JUNIOR FULL-STACK DEVELOPER

Lalitpur, Nepal | +977-9848688464 | Email | GitHub | LinkedIn

Junior Full Stack Web Developer with a passion for building dynamic web applications. Experienced in Laravel and Filament for backend development, and React (TSX) for creating clean, interactive user interfaces. Enjoys solving complex coding challenges, continuously learning new tools and technologies, and contributing to collaborative teams while delivering scalable, high-quality solutions.

PROFESSIONAL EXPERIENCE

Frontend Web Developer Intern | Clouds Nepal Web | May 2026 – Ongoing

- Developing clean, type-safe, and modular user interfaces with React.js and TypeScript (TSX), while translating design mockups into responsive, pixel-perfect web applications using modern CSS and frontend frameworks.
- Managing state, component lifecycles, and asynchronous data fetching to ensure a smooth, fast user experience.
- Collaborating with backend developers to integrate APIs and maintain clean code architecture.
- Utilizing Git for version control, feature branching, and team code reviews.

Web Developer Intern | Professional Website Nepal (ProWeb) | November 2025 – May 2026

- Modernized legacy web systems by migrating static websites to dynamic applications built with Laravel and Filament, while developing and customizing Filament-based administrative dashboards that enable clients to efficiently manage and update their website content.
- Managed frontend layout and styling updates using HTML and CSS to meet precise design mockups and specific client requests.
- Actively resolved production styling bugs and user interface issues submitted directly by clients, ensuring a polished final user experience.
- Collaborated with company mentors and senior developers to debug backend logic, optimize MySQL database interactions, and implement new features.
- Maintained code repositories and managed project version control daily using Git.

TECHNICAL SKILLS

- Backend Frameworks: Laravel, Filament (Admin Panel)
- Frontend Development: React.js, JavaScript, TypeScript, HTML5, CSS3
- Programming Languages: PHP, C Programming, Java (Basics)
- Tools & Databases: Git, MySQL / phpMyAdmin

EDUCATION

Bachelor's Degree | Bachelor of Computer Information Systems (BCIS) | Pokhara University 2022-2026
